## List of channels on UPC Ireland

This is a list of the channels currently available on the [UPC Ireland](#) digital television services.

The availability of channels varies depending on the package chosen. Not all channels are available in all areas, however the numbering of each channel, where available, remains consistent. Note that in relation to Chorus, this list applies only to [cable](#) platforms - the original Chorus Digital line-up continues on [MMDS](#). Analogue platforms also have a number of different line-ups. High-definition channels are only available to customers with a Digital+ HD [set-top box](#).

The most recent channels to launch were True Movies 1 and Food Network on channels 328 and 508 on 6 September 2011.

## Key
